ABOUT ME

Overall **11.10 years** of Total Experience in extensive IT Industry across **Banking, Finance and Billing domains**. **Passionate about elegant design and robust functionality**. This has taken me to learning paths of front-end as well as backend, resulting into knowledge of developing end-to-end application starting from user experience UX to designing restful web service.

EDUCATION

BE IN MECHANICAL ▪ 1997 – 2001
MUMBAI UNIVERSITY
First Class

EMPLOYMENT

ASSOCIATE (AVP) at JP MORGAN CHASE

Mumbai, IN ▪ Oct 2008 – current

- + Designing / developing BIRT reports
- + Designing parsers to consume **web services** to generate reports
- + Writing SQL queries to provide data for Reports
- + Leading the team (India and US) with report designing and best practices
- + Working with Product team and Business analyst to gather requirements and gap analysis
- + Working with quality analysis (QA) team for reviews of test plans, defect fixes
- + Coordinating with vendor teams
- + L3 level Production support

ACHIEVEMENTS

- + **Reduced report development time by 15%** by creating BIRT framework
- + **Saved License cost** by developing deployment architecture to support multiple environments on the same Actuate BIRT Server
- + Developed **Interactive report** feature using open source BIRT, giving capabilities of dynamically grouping, sorting, filtering data as well as adding graphs, notes to online report and saving the template
- + Conducted BIRT trainings
- + Using BPM driven process engineered a central hardware and seat management system to track the hardware / seat allocated to employee

SERVERS

Tomcat 
Actuate (i-Server) 

TOOLS

Eclipse 
SVN 
Maven 
iReports 

METHODOLOGY

Agile 
Waterfall
